PRE-SCAN & POST-SCAN

Step 1: AutoSCAN the Vehicle

- AutoVIN instantly identify all vehicle information
- AutoSCAN all available modules in all systems
- Single screen list all DTCs and code details

Step 2: Print Pre-SCAN Report

- Take vehicle pictures and attach to SCAN report
- Single button generates dated report file to submit
- Report is customized with shop and vehicle info
- Expedite insurer approved repair estimate
- Avoid additional insurance authorizations

Step 3: Repair Vehicle

CREATE EFFICIENT REPAIR PLAN FROM THE START

Step 4: AutoSCAN Repaired Vehicle

- Ensure no new faults were created during repair
- Confirm no DTCs are present at completion
- Ensure vehicle is repaired and safe for customer

Step 5: Print Post-SCAN Report

- Prove all DTCs on Pre-SCAN report are fixed
- Dated SCAN report to confirm project complete

SYSTEM SUITE

THE MAXISYS SYSTEM SUITE IS INCLUDED WITH THE FOLLOWING MODELS

MaxiSYS MS908Elite, MS908S Pro, MS908S, MS908CV, MS906CV, MS906TS, MS906BT, MaxiTPMS TS608, MaxiCheck MX808

POWERFUL HARDWARE

MaxiSYS is the quickest diagnostic tool on the market, utilizing a larger processor and the fastest communication protocols. Featuring intelligent power saving for extended battery life.

BLUETOOTH OBDII VCI

Enhanced wireless connectivity between scan tool and Vehicle Communication Interface (VCI) device, allowing greater mobility to complete repairs quickly and easily.

PRINTER SETUP

Prints recorded data anytime and anywhere. Print from the tablet scan tool via a Windows PC after installing PC Suite software.

ANDROID SOFTWARE

MaxiSYS multitasking Android Operating System combined with OE-level diagnostic coverage. AutoVIN technology provides fast and precise vehicle identification. VCI automatically connects with tool via Bluetooth.

MAXICLOUD

The industry's first cloud-based online community puts you in touch with the latest tips and expertise from technicians around the world. It also saves customer and vehicle records, scanner data, and technician notes which are available on demand 24/7.

MAXIFIX

Cloud-based MaxiFIX provides a network platform to communicate with other professional technicians and provides access to a large database of repairs, diagnostic tips and procedures.

SHOP MANAGER

Single organization to multi-task manage workshop operations. Designed to keep all project data files, customer information and vehicle ID and project records.

DATA LOGGING

Interactive recording sessions save project data issues and enable direct contact with Autel tech support for first-hand troubleshooting of diagnostic bugs and errors.

REMOTE SUPPORT

Tech support can remotely log into the device and walk you through complicated vehicle diagnostics. This real-time support provides quick and accurate solutions with a simple transfer of data logs from your device.

SYSTEM UPDATES

**J2534
MAXIFLASH ELITE
PASS-THRU
PROGRAMMING**

**BLUETOOTH
WIRELESS VCI
VEHICLE COMMUNICATION INTERFACE**

SYSTEM UPDATES

- The tool must be connected to the Internet to download and install updates
- Confirm your tool is connected to your WiFi router

1. Turn on the MaxiSYS tablet.
2. Tap the MaxiSYS icon on the screen or tap on the  icon at the bottom of the screen to navigate to the main menu.
3. If updates are available, a red circle above the Update button will display the number of software updates ready to install.
4. Tap the Update button to navigate to the update listing menu to choose which updates you want to install.

INSTALL UPDATES

- Make certain to download any system update listed for vehicle manufacturer you service
- Tap Update tab to start the download
- **Install one update at a time to ensure each update is correctly downloaded and installed**
- **Do Not select the Download All button**
- Tap the  icon to view detailed info about that vehicle update including software fixes and special functions additions

UPDATE THE VCI

- Using the supplied USB cable, attach the VCI to the MaxiSYS tablet
- Tap the VCI icon on the bottom of the tablet display
- From the VCI manager screen, tap update on the right-hand side of the display
- The tool will connect with the Autel server and display a **Update Now** button if an update is available
- Tap **Update Now** and wait for the update to complete
- Once completed, unplug the VCI from the tablet and VCI will reboot

LIMITED WARRANTY

To Guarantee Latest Vehicle Coverage, Tools Must Be Registered & Updated

Autel warranties that its tools will be free from defects in material or workmanship for a period of one (1) year after tool registration.

STANDARD POLICY

Autel guarantees to the original end-user customer that its products are free from defects in material and workmanship for a specified period of time depending on the product.

Autel, will repair or replace warranted products at its discretion:

- Replaced products will either be new or re-certified
- All re-certified products will be tested to ensure their hardware and software are functionally equivalent to new products

DO NOT OPEN AUTEL PRODUCTS:

- Opening an Autel product may cause damage to the tool that is not covered by this limited warranty
- Contact Autel Tech Support for any needed service

This limited warranty does not apply to:

- Product with a cracked screen, broken case, chemical exposure or liquid damage
- Damaged product due to accident, abuse, misuse, natural disaster, insufficient or excessive electrical supply, abnormal mechanical or environmental conditions or unauthorized disassembly, repair or modification
- Consumable parts, such as batteries or protective coatings that are designed to diminish over time, unless failure has occurred due to a defect in materials or workmanship
- Product not used in accordance with accompanying instructions or intended use
- Stolen products or Product with an altered or removed original identification number
- Refer to pages 16 and 17 for initial year warranty and TCP extended warranty information
- To replace batteries on out-of-warranty tools, contact Autel Tech Support (a service fee will be charged)

SERVICE PROCEDURE

- Any defective products require a Return Goods Authorization (RGA) number from Autel to be serviced
- Contact Autel Tech Support to obtain an RGA number
- The end-user is responsible for the cost of insuring and shipping products to Autel for repair or replacement
- Autel will cover the return shipping cost of the repaired or replacement tool with the same delivery speed by which it was received
- Tools must be properly packaged to prevent damage during transit
- The Autel RGA number must be prominently displayed on the outside of the package
- Packaged received by Autel without the RGA number prominently displayed will be returned, unopened
- Autel cannot guarantee the security of a unit that is shipped without an Autel-issued RGA
