Chrome T Handle w/Spiral Probe

Home > Tire Repair Tools > Plugging Tools

Always wear safety goggles to protect your eyes, and wear other appropriate safety items for protection.

Product Description

12 oz. solid chrome t-handle with replaceable needles and probe.

Usage Instructions

1. Remove foreign object from the tire.
2. Lube the tip of the probe to follow direction of the injury with BlackJack's BJL Lube.
3. Insert the probe (BJPRB or BJPRB-P) at the angle of the injury. The augering action of the spiral probe will clean the injury.
4. Use the probe to spread cords to make inserting the repair easy.
5. Remove the repair from the paper.
6. Center the repair in the BJPN probe needle (do not use glue).
7. Insert the repair with a steady, even push at the angle of the injury.
8. Pull the probe needle straight out and DO NOT TWIST. Cut off the excess.
