

FUEL PRESSURE TEST GAUGE TOOL

This gauge is a must have JIMS® new tool as 90% of all Big Twins motorcycles have Electronic Fuel Injection, (EFI). If you have a customer that is experiencing any of the following conditions:

- Hesitation under acceleration
- Loss of power
- Back firing through the intake
- Poor fuel economy
- Stalling out
- Engine turns over but will not start

These are just a few symptoms that improper fuel system pressure may contribute to. This fuel pressure gauge is easily installed in line with the motorcycles fuel supply system. All fuel testing should be (if possible) performed with the engine running. JIMS® supplies you with all the necessary hose connections and fittings to safely perform a fuel pressure test in about the same amount of time it takes to change a set of spark plugs. *For more details see No.955-IS instructions.*

No.955 - Use on all H-D® models using EFI, includes V-Rod.

PARTS AVAILABLE SEPARATELY

NO.	QTY.	DESCRIPTION	PART NO.
1	1	MAIN HOSES, VALVES & GAUGE ASSY	955-23
2	2	TANK CONNECTER ADAPTER	955-24
3	1	INSTRUCTION SHEET	955-IS
