

Phoenix ADAS Mobile Max Package (C)

Built for Precision and Maximum Coverage

The Phoenix ADAS Mobile is a foldable calibration frame for passive and active ADAS systems in cars. Now, technicians can set up the Phoenix ADAS Mobile in less than 30 minutes and do the job from anywhere. Compatible with any of TOPDON's Phoenix Scanners, this device gives professionals the capability to do intricate calibrations on the newest cars. The Max Package gives its users robust calibration coverage, including all targets from the deluxe package, and an additional 14 targets. This package covers a wide range of ADAS systems, including LDW, AVM, NVS, LiDAR, and more.

Features

- Totally Mobile**
 The Phoenix ADAS Mobile features a collapsible design for convenience, easy storage, and unmatched portability. With foldable arms, detachable lifter and base, you can easily carry and transport this calibration tool.
- Quick Set-Up**
 With this tool, professionals can calibrate ADAS systems from an auto shop, a parking lot, or even at a client's driveway. Its unmatched portability and convenience makes your business more productive and profitable.
- Unmatched Precision**
 The high-precision 5-line laser and the cross-line laser device will assist you in positioning the ADAS calibration tool with exactness. Featuring a multifunctional base with 360-degree swivel wheels, it provides smooth and flexible movement, making adjustments during calibration both easy and stable.

Specs

- The Phoenix ADAS Mobile standard package comes safely in a Wooden Case (1415*1075*540mm; 55.71*42.32*21.26inch).
