

RLink X3

Made for Ford, GM, Chrysler

RLink X3 is built for North America's leading vehicles—GM, Ford, Chrysler, and their sub-brands. It works with 8+ OE software to deliver true dealership-level diagnostics, including ECU programming, coding, active testing, and more. Supporting J2534 and CAN-FD protocols, it's your all-in-one solution for more vehicles from 2006 to 2025. With lifetime free driver updates, easy-to-follow instructions, and U.S.-based tech support, you'll always be ready to handle the job.

Features

- **OEM Reprogramming and Diagnostics:** Achieve OEM diagnostics when paired with OE software, including ECU programming & coding, active tests, special functions, and more.
- **Broad Vehicle Coverage:** Support both J2534 and CAN-FD protocols, ensuring compatibility with a wide range of vehicles from 2006 to 2025, including the latest models.
- **All-in-One Solution:** A single tool that works seamlessly with 8+ OE software for GM, Ford, and Chrysler vehicles, no need for multiple devices.
- **U.S.-Based Technical Support:** Dedicated local support team responds within 24 hours, assisting with everything from activation to complex programming tasks.
- **Exclusive RLink Platform:** Get access to lifetime free driver updates, real-world programming case references, and direct user feedback submission.
- **High-Speed and Reliable Performance:** Experience 10× faster data speeds and proven stability, validated by over 10,000 real-world vehicle tests.

Specs

- Operating Voltage: 9 - 18 V
- Storage Temperature: -20 °C - 70 °C (-4 °F - 158 °F)
- Working Temperature: -10 °C - 50 °C (14 °F - 122 °F)
- Dimensions: 92*48*24 mm (3.62* 1.89 * 0.94 inch)
- Cable Length: 1.8m (70.87inch)
- Net Weight: 141 g (4.97 oz)
- Supported OE Software:
 - Chrysler: WiTech2
 - Ford: FDRS/FJDS
 - GM: GDS2/TLC,Tech2win, SPS
