

JHWSC409THTB
Tools@Height Master Maintenance
Tools Set with Boxes

PRODUCT DETAILS

- Provides a great assortment for all types of maintenance applications
- All tools are designed to be used with our tethering and retention system which maintain or enhance the tools' functionality when used at height or near critical assemblies
- Productivity and safety right out of the box
- Many applications- any industry where a dropped tool could harm personnel, damage machinery or cost production time
- High level uses including drilling derricks, wind turbines, cranes, buildings, bridges, masts, powerlines, hangars, scaffold builders
- Low level uses like stop tools dropping onto flight hardware, into engines, machinery, food production lines, vats, min shafts, even under water uses
- Set is available with foamed tool control on a special order basis
